SRH CONNECTS:
Strengthening International Academic Networks

SRH Connects is an **international collaboration** project that brings together researchers and students from different Universities from Ghana, India and Germany as well as local communities to promote **sustainability**, **intercultural exchange**, and **global cooperation**.

Project Team

Indian Institute of Science Education and Research (*IISER Pune*)
National Institute of Technology (*NIT Delhi*),
University of Energy and Natural Resources – Sunyani (*UENR*)
Kwame Nkrumah University of Science and Technology (*KNUST*)
SRH University (Heidelberg and Berlin Campus)

Main Components

International Network Development
Building sustainable partnerships between universities to strengthen international academic collaboration and knowledge exchange.

Sustainability Collaboration Labs
Co-creating interdisciplinary, practice-oriented learning environments that connect students, academia, and industry to address real-world sustainability challenges.

International Doctoral Standards
Development of structured doctoral frameworks for international cooperation and shared academic standards.

Internationalization and Diversity Skills
Embedding intercultural competencies across university administration, student services, research, and teaching to foster an inclusive and globally connected academic environment.

Co-Creation Workshop (Sept. 2026)

Participants explored approaches to integrating practical case studies, digital learning resources, and interdisciplinary activities into teaching.

Key Outcomes

- Initial ideas for topics, learning objectives and activities.
- Integrating sustainability challenges and real-world case studies into teaching.
- Ideas for digital learning resources and materials.
- Agreement on next steps for development and implementation.
